## WE ARE *for* THE WILD

At Taronga we believe that **animals and humans can share this planet**. That animals deserve to live in the wild, unthreatened by poaching, disease, loss of natural habitat or loss of food sources.

We're **working tirelessly** to contribute towards a **shared future**, helping threatened species to breed and protecting their genetic diversity.

We've been helping to **reintroduce animals back into the wild** and at the same time, transforming ourselves into a centre for conservation. For education and inspiration.

Just by visiting today, you've made a contribution to the wild – thank you.
